**Chemcut Corporation Announces Atlantic Micro Tool
Expanded Sales Territory**

Chemcut Corporation, the US based manufacturer of Wet Process Equipment, has expanded Atlantic Micro Tools sales territory to include DE, MD, VA, WV, NY, PA, NC, SC, TN, GA, AL, FL, MS, Ontario. Atlantic Micro Tool has-represented Chemcut for over 15 years in the States of ME, NH, VT, RI, CT, NJ, New York City MA, NY counties of Nassau, Suffolk, Quebec & Eastern Ontario.

"Atlantic Micro Tool," stated Dan Dietz VP Engineering & Business Development, "has served Chemcut very well for many years, and we are confident that our customers will be the true beneficiaries of this service area expansion." Dietz continued, "Atlantic Micro Tool is very well known throughout the PCB industry. They have the skills and resources needed to effectively promote Chemcut, and they are widely recognized as a customer service-oriented organization. We look forward to maintaining a long, productive relationship with their organization."

Chemcut Corporation, founded in 1956, was the original developer of spray etching, a technique that made the chemical etching process practical for volume, as well as prototype production. Chemcut offers a complete line of spray etchers, developers, strippers, waste treatment systems, and auxiliary equipment. More than 15,000 Chemcut units are currently in operation around the world.
